SIXTY / YOUR CHINESE YEAR

Metal Dragon

Avery / 2000 lunar year

YOUR 60-YEAR TWIN

1940 / 2000 / 2060

Geng-Chen / 17 of 60

The same animal and year-stem element repeat every 60 years. These are cycle-year labels, not matching Gregorian birthdays or predictions.

WHY THIS IS YOUR YEAR

Your birth date, **18 June 2000**, is after Lunar New Year on **5 February 2000**. This places it in the **2000 Metal Dragon year** under this convention.

A CULTURAL LABEL, KEPT PERSONAL

The animal is one of twelve traditional year labels. Metal comes from the year stem in the traditional five-phase cycle; it is not your BaZi Day Master. A full BaZi chart uses more than a birth year.

Keep this page as a small record of your place in the calendar. Share the PNG card: it includes your optional name and cycle years, but leaves out your full birth date.

I'm called Sixty for a reason.
